

CONSTRUCTION CRAFT LABORER

As the field of construction becomes more dependent on the use of complex equipment and machinery and a broader selection of materials and techniques, the construction craft laborer is increasingly expected to have enhanced competencies in understanding, using and managing resources, information, and technology. They also need to have good communication skills, and interpersonal skills. CITC's three-year program prepares laborers to perform a wide range of physically demanding tasks involving building and highway construction, underground construction, paving, and demolition. All classes will place an emphasis on safety training and awareness along with discussing environmental concerns and best practices related to the work performed.

NOTE: IT IS CRUCIAL THAT STUDENTS HAVE REQUIRED BOOKS PRIOR TO THE FIRST CLASS MEETING. A STUDENT WHO DOES NOT HAVE BOOKS BY THE END OF THE SECOND WEEK MAY BE SENT HOME AND BE CHARGED WITH AN ABSENCE.

LABORER PREREQUISITES (REQUIRED)

Minimum: 32 hours per year

Prior to beginning level one, laborer students are scheduled for 32 hours of preliminary class which includes: OSHA 10, First Aid/CPR, Flagger Certification, and Financial Tools for the Trades.

LABORER LEVEL 1

Minimum: 160 hours per year

Weeks 1 and 2 cover general construction skills including safety, trade math, proper and safe use of hand and power tools, construction drawings, material handling and jobsite communication.

Weeks 3 and 4 teach concrete placement, including site preparation, job setup and layout, estimating concrete, concrete forming systems, concrete placement and concrete curing.

REQUIRED BOOKS - CONSTRUCTION CRAFT LABORER LEVEL 1

It is the student's responsibility to have the following book(s) on the first night of class:

NCCER Core Curriculum Trainee Guide, 5th Edition	978-0-13-413098-9
NCCER Construction Craft Laborer Level 1 Trainee Guide, 3rd Edition	978-0-13-413094-1

LABORER LEVEL 2

Minimum: 160 hours per year

Second year laborers will complete an orientation to the multiple trades and the support role a laborer plays in the day to day operation on the jobsite; training in supporting carpenters in horizontal and vertical formwork as well as reinforcing concrete; safety training related to elevated work; electrical safety; and an introduction to construction equipment, oxyfuel cutting, and masonry in high-rise construction.

REQUIRED BOOKS - CONSTRUCTION CRAFT LABORER LEVEL 2

It is the student's responsibility to have the following book(s) on the first night of class:

NCCER Construction Craft Laborer Level 2 Trainee Guide, 3rd Edition	978-0-13-413096-5
---	-------------------

LABORER LEVEL 3

Minimum: 160 hours per year

The third year focuses on project procedures and practices of skills for underground construction and paving with an emphasis in excavation safety and procedures, and related mathematics. Discussions will include environmental concerns and issues common with site excavations and materials used in the paving processes. Students will also receive hands-on training in hoisting, rigging, slinging, signal person skills, scaffold safety, fall protection safety, and construction equipment training.

REQUIRED BOOKS - CONSTRUCTION CRAFT LABORER LEVEL 3

It is the student's responsibility to have the following book(s) on the first night of class:

LABORER INSTRUCTORS

As a part of our dedication and commitment to training, we take pride in delivering top quality instructors. CITC's instructors are highly skilled journey-level workers who bring their knowledge and years of trade experience into the classroom. All CITC instructors have been certified by the National Center for Construction Education and Research.

Lynel Bortles started working in construction in 1974. Awarded 2006/2007 CITC Craft Training Instructor of the Year. CITC faculty member since 1990.

Ashley Richards has over 40 years experience in the construction industry. CITC faculty member since 2019.
