

CONSTRUCTION CRAFT LABORERS

As the field of construction becomes more dependent on the use of complex equipment and machinery and a broader selection of materials and techniques, the construction craft laborer is increasingly expected to have enhanced competencies in understanding, using and managing resources, information, and technology. They also need to have good communication skills, and interpersonal skills. CITC's three-year program prepares laborers to perform a wide range of physically demanding tasks involving building and highway construction, underground construction, paving, and demolition. All classes will place an emphasis on safety training and awareness along with discussing environmental concerns and best practices related to the work performed.

HYBRID LEARNING PROGRAM

CITC has taken company-wide measures to help prevent the spread of the COVID-19 virus to ensure the health and safety of students, faculty, staff and the community. Due to the COVID-19 Pandemic, CITC classes will be delivered in a hybrid format with theory classes being offered virtually and small in-person labs scheduled at our facilities throughout the year. All in-person lab sessions will be scheduled to ensure students and faculty can maintain social distancing protocols during lab activities and performance testing.

Students will be required to have access to a computer or tablet device with a working camera and microphone. Additionally, all students will need to have access to a reliable internet source when classes begin in the fall. For additional information on the technical requirements for this program please contact the CITC office at (425) 454-2482.

Note: It is crucial that students have required books prior to the first class meeting. A student who does not have books by the end of the second week may be dismissed from class and charged with an absence.

APPRENTICESHIP MONTHLY WORK LOGS

Apprenticeship monthly work logs can be submitted to the apprenticeship department via email: worklogs@citcwa.org; fax: (425) 289-0085; mail to the CITC main office: 1930 116th Ave NE Bellevue, WA 98004; or placed in the Drop Box outside of CITC Facilities.

NCCERCONNECT 2.0 WITH PEARSON eTEXT ACCESS CARD

NCCERConnect 2.0 is an online training program that enhances student learning with a range of visual, auditory, and interactive elements. Your Pearson eText Access Card will give you access to an eBook version of the textbook included in the package.

LABORER PREREQUISITES (REQUIRED)

Minimum: 32 hours per year

Prior to beginning level one, laborer students are scheduled for 32 hours of preliminary class which includes: OSHA 10, First Aid/CPR, Flagger Certification, and Financial Tools for the Trades.

LABORER LEVEL 1

Minimum: 160 hours per year

Weeks 1 and 2 cover general construction skills including safety, trade math, proper and safe use of hand and power tools, construction drawings, material handling and jobsite communication.

Weeks 3 and 4 teach concrete placement, including site preparation, job setup and layout, estimating concrete, concrete forming systems, concrete placement and concrete curing.

REQUIRED BOOKS - CONSTRUCTION CRAFT LABORER LEVEL 1

It is the student's responsibility to have the following book(s) on the first night of class:

NCCER Core Curriculum Trainee Guide, 5th Edition, Softcover <i>or</i>	ISBN: 9780134130989
NCCER Core Curriculum Trainee Guide, 5th Edition, Hardcover <i>or</i>	ISBN: 9780134131436
NCCER Core Curriculum Trainee Guide, 5th Edition, Adobe Reader	ISBN: 9780134671147
NCCER Construction Craft Laborer Level 1 Trainee Guide, 3rd Edition Paperback <i>or</i>	ISBN: 9780134130941
NCCER Construction Craft Laborer Level 1 Trainee Guide, 3rd Edition Acrobat Reader	ISBN: 9780134751221

LABORER LEVEL 2

Minimum: 160 hours per year

Second year laborers will complete an orientation to the multiple trades and the support role a laborer plays in the day to day

REQUIRED BOOKS - CONSTRUCTION CRAFT LABORER LEVEL 1

It is the student's responsibility to have the following book(s) on the first night of class:

NCCER Construction Craft Laborer Level 2 Trainee Guide, 3rd Edition <i>or</i>	ISBN: 9780134130965
NCCER Construction Craft Laborer Level 2 Trainee Guide, 3rd Edition Acrobat Reader	ISBN: 9780134751184

LABORER LEVEL 3

Minimum: 160 hours per year

The third year focuses on project procedures and practices of skills for underground construction and paving with an emphasis in excavation safety and procedures, and related mathematics. Discussions will include environmental concerns and issues common with site excavations and materials used in the paving processes. Students will also receive hands-on training in hoisting, rigging, slinging, signal person skills, scaffold safety, fall protection safety, and construction equipment training.

REQUIRED BOOKS - CONSTRUCTION CRAFT LABORER LEVEL 3

It is the student's responsibility to have the following book(s) on the first night of class:

Required Modules are available for "check-out" through CITC

Laborer Instructors

As a part of our dedication and commitment to training, we take pride in delivering top quality instructors. CITC's instructors are highly skilled journey-level workers who bring their knowledge and years of trade experience into the classroom. All CITC instructors have been certified certification by the National Center for Construction Education and Research.

Patrick McClay has over 40 years experience in the construction industry and joined the CITC faculty in 2019.
